

THE STANDARD BY WHICH ALL CUTTING FLUIDS ARE MEASURED

TAP MAGIC Cutting Fluid was first developed in 1953 for machinists who needed far greater precision than they could achieve with conventional cutting oils. Since then, a whole family of TAP MAGIC Cutting Fluids has been developed – each carefully engineered to meet a specific set of metalworking demands.

Whatever the metal, whatever the cutting operation, TAP MAGIC Cutting Fluids penetrate right to the cutting edge of the tool to provide superior lubrication, greater precision, and longer tool life.

TAP MAGIC Cutting Fluids are offered in a wide variety of sizes, and even in an aerosol can. They're easy to find too, thanks to an outstanding network of industrial distributors.

Use TAP MAGIC Cutting Fluids and you'll join millions of satisfied metalworking professionals who "Believe In Magic."

*Believe
In Magic*

TAP MAGIC® with EP-XTRA® – an ozone-friendly formula that gives you outstanding performance for any cutting operation on any metal. Absolutely without equal on all hard metals and for cuts of extreme pressure or long duration.

TAP MAGIC® ALUMINUM – the most effective cutting fluid you can use for any metal work on aluminum. Provides excellent performance for all cutting operations.

TAP MAGIC® XTRA-THICK™ – The extreme performance heavy-weight cutting fluid for the hardest metals up to 45 RC. Great for lathe, millwork, and deep hole cuts. Contains EP-X³®.

TAP MAGIC® XTRA-FOAMY – The new high visibility foaming fluid with extreme performance. For the hardest metals up to 45 RC. Contains EP-X³® for a synergistic boost in performance.

TAP MAGIC® PRO TAP® – our original biodegradable cutting fluid. Totally free of all regulated chemicals. Highly effective for all cutting operations on all metals.

TAP MAGIC® FORMULA 1 AQUEOUS – A non-corrosive water-based fluid that's highly effective for all cuts on all metals and totally biodegradable. Contains EP-X³® for a synergistic boost in performance.

TAP MAGIC® FORMULA 2 ECO-OIL – A unique base of natural oil that's especially low in odor and smoke. Highly effective for all cuts on all metals and totally biodegradable. Contains EP-X³® for a synergistic boost in performance.
